Declarations

Declarations of Authorship and Consent for Checking with Plagiarism Software and the Declaration of Publication for Bachelor's and Master's Thesis

Student ID: Student ID Surname: Last Name First Name: First Name
Title of Thesis: Thesis Title

A) Declaration of Authorship

I hereby affirm that I have written the present work independently and have used no sources or aids other than those indicated. All parts of my work that have been taken from other works, either verbatim or in terms of meaning, have been marked as such, indicating the source. The same applies to drawings, sketches, pictorial representations and sources from the Internet, including AI-based applications or tools. The work has not yet been submitted in the same or a similar form as a final examination paper.

☐ I have used AI-based applications and/or tools and documented them in the appendix "Use of AI-based applications".

B) Declaration regarding the publication of bachelor's or master's thesis

Two years after graduation, the thesis is offered to the archive of the University of Bremen for permanent archiving. The following are archived:

1) Master's theses with a local or regional focus, as well as per subject and academic year 10% of all Master's thesis
2) Bachelor's thesis for the first and last bachelor's degrees per subject and year.

☐ I agree that my thesis may be viewed by third parties in the university archive for academic purposes.

☐ I agree that my thesis may be viewed by third parties for academic purposes in the university archive after 30 years (in accordance with §7 para. 2 BremArchivG).

☐ I do not consent to my thesis being made available in the university archive for third parties to view for academic purposes.

C) Declaration of consent for electronic checking of the work for plagiarism

Submitted papers can be checked for plagiarism using qualified software in accordance with § 18 of the General Section of the Bachelor's or Master's Degree Examination Regulations of the University of Bremen. For the purpose of checking for plagiarism, the upload to the server is done using the plagiarism software currently used by the University of Bremen.

☐ I agree that the work I have submitted and written will be stored permanently on the external server of the plagiarism software currently used by the University of Bremen, in a library belonging to the institution (accessed only by the University of Bremen), for the above-mentioned purpose.

☐ I do not consent to the work I submitted and wrote being permanently stored on the external server of the plagiarism software currently used by the University of Bremen, in a library belonging to the institution (accessed only by the University of Bremen), for the above-mentioned purpose.

Consent to the permanent storage of the text is voluntary. Consent can be withdrawn at any time by making a declaration to this effect to the University of Bremen, with effect for the future. Further information on the checking of written work using plagiarism software can be found in the data protection and usage concept. This can be found on the University of Bremen website.

With my signature, I confirm that I have read and understood the above explanations and confirm the accuracy of the information provided.

1

Introduction

Introduce the topic of your thesis and give the reader an overview of the report.

1.1 Motivation

1.1.1 ...

Why is this problem worth solving?

1.1.2 ...

1.2 Challenges and Difficulties

1.2.1 ...

What makes the problem hard?

1.2.2 ...

1.2.3 ...

1.3 Research Questions

1.3.1 ...

State the research questions that you will answer in your thesis.

1.3.2 ...

1.3.3 ...

2

State of the Art

2.1 ....

Use as many sections as you need in your related work to group content into logical groups Don't forget to correctly cite your sources [1].

2.2 Limitations of previous work

3

Methodology

How you are planning to test/compare/evaluate your research. Criteria used.

3.1 Setup

3.2 Experimental Design

4

Solution

Your main contributions go here

4.1 Proposed algorithm

4.2 Implementation details

5

Evaluation and Results

5.1 Experiment Description

Describe the experiments/evaluation you are performing to analyse your method.

5.2 Experimental Setup

Describe your experimental setup in detail.

5.3 Results

Describe the results of your experiments in detail.

6

Conclusions

6.1 Contributions

6.2 Lessons learned

6.3 Future work

A

Design Details

Your first appendix

B

Parameters

Your second chapter appendix

C

[in the case of using AI-based applications] Use of AI-based Applications

Describe in detail what content was generated using an AI assistant. Name the AI assistant and how it was used (e.g. which prompts were used, and for which parts of the project).
